

FISCAL NOTE

TO: Chief Clerk of the Senate
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: January 29, 1996

SUBJECT: **SB 2120 - HB 2177**

This bill, if enacted, will authorize county registers to provide remote electronic access to information contained in the records of the office. A register may charge any user of information a fee for such access.

The fiscal impact on local governments from enactment of this bill in and of itself is estimated to be minimal since the provisions of the bill are permissive.

Any increase in local government expenditures and local government revenues will depend upon the number of county registers choosing to establish such access to records and the amount of the fee they charge users of the system. Such increased expenditures and revenues cannot be determined but are estimated to exceed \$100,000 respectively, if several counties establish such systems and fees.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director

SB 2120
